4000 Art Way Drive
Paris, Texas 75460

Re: Specialty License Plate Number BDBUG

Dear Specialty Plate Owner:

In an effort to avoid possible confusion, we want to notify you that the fee for your specialty license plate has increased and will be reflected on your upcoming registration renewal notice. The price increases are:

- From \$95 to \$155 for the one year "T" plate
- From \$85 to \$195 for the one year "White" plate

Note: Multi-year issuance options, which reduce the annual fee rate, are available for these plates. You may view these options at myplates.com.

Based on this fee change your renewal options are:

- **Renew at the New Fee** - Renew your annual vehicle registration and specialty plate through your county tax assessor-collector's office at the new fee. Under this option, you may register in person at the tax office or through the mail. You may also renew through a county subcontractor office such as a grocery store or online if offered by your county.
- **Make a Change at Renewal** - When it is time to renew your registration and plate, if you prefer not to renew your current specialty plate or wish to change the plate issuance period, please visit your local county tax assessor-collector's office. These types of changes can only be accomplished in person.

We appreciate your support of the state's specialty license plate program and apologize for any inconvenience these fee changes may cause you. If you would like to contact My Plates about specialty plate prices and options, you may call 888-7MY-PLATES, or go to myplates.com.

If you have any questions about your vehicle registration renewal, please contact us at 512/465-3000 or email us at askvtr@txdmv.gov.

Sincerely,

A handwritten signature in cursive script that reads "Randy Elliston".

Randy Elliston, Director
Vehicle Titles and Registration Division
